PROFILE

I am a motivated Junior Frontend Developer with a strong foundation in creating responsive and interactive web applications. Proficient in React.js and modern JavaScript, I focus on delivering clean, efficient, and user-friendly interfaces. Eager to learn and grow, I thrive on collaborating with teams and taking on new challenges to enhance my skills and contribute to impactful projects

TECHNICAL SKILLS

- Programming Languages: JavaScript (ES6+), HTML5, CSS3
- Frameworks & Libraries: React.js, Tailwind CSS, Bootstrap
- Tools & Platforms: Git, GitHub, VS Code
- APIs & Technologies: REST APIs, Axios, React Router, Context Api
- Others: Responsive Design

PROJECTS

Ecommerce(Jul 2024 – Oct 2024): [Github](#) [Website](#)

- **Technologies Used:** React.js, Axios, React Router Dom, Context API, Bootstrap.
- Designed and developed a fully responsive eCommerce platform using React.js, offering a seamless shopping experience across all devices.
- Implemented advanced features such as product filtering, sorting, search functionality, pagination, and a fully functional shopping cart to enhance usability and streamline the shopping experience.
- Developed an admin dashboard with complete CRUD operations for managing products and categories efficiently.
- Optimized performance and implemented best practices for scalability and user engagement.

Sudoku Puzzles(Nov 2024 – Dec 2024): [Github](#) [Website](#)

- **Technologies Used:** React.js, JavaScript, CSS, HTML
- Developed an interactive Sudoku game that generates new puzzles and validates user inputs.
- Integrated features to validate solutions, offer hints, and verify puzzle correctness.
- Designed an engaging and responsive user interface for smooth gameplay on both desktop and mobile devices.
